About This Software

PowerDVD plays everything from DVDs & Blu-ray discs to online videos & 360° VR content, making it the best media player for PCs and home theaters. PowerDVD is the essential family entertainment companion, capable of playing video, audio, photo,

VR 360° and even YouTube & Vimeo content. Unlock the full potential of your 4K HDR TVs and take advantage of the surround sound system in your home cinema like never before. With PowerDVD 18, you can completely immerse yourself in virtual worlds with access to ever growing collections of VR 360° videos, or simply unwind wherever you are with unrivaled playback support and unique enhancements on your PC or laptop.

Incredible Ultra HD Blu-ray Playback

PowerDVD brings the latest in high-resolution video technology right into your living room to ensure you can enjoy the ultimate experience in Ultra HD 4K & HDR home entertainment. Ultra HD Blu-ray is as good as home cinema gets!

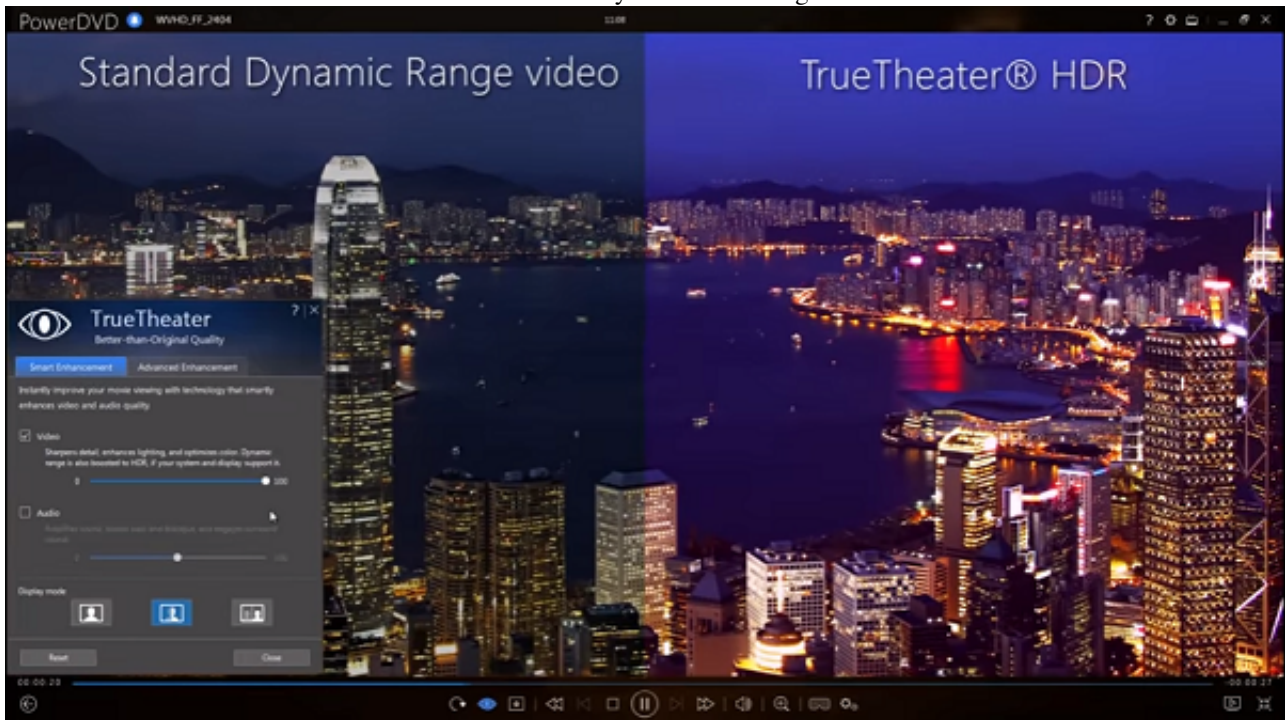

Enjoy Cinema-grade Sound at Home

PowerDVD supports master-quality sound technology from the leaders in professional digital audio—Dolby and DTS. Enjoy the acoustic difference of specialized multichannel audio and lossless audio formats such as FLAC and DSD.

Better-than-Original Quality

CyberLink's unique TrueTheater audio-visual enhancement technology drastically improves the quality of all videos, including Blu-ray, HD and 360° content. It is the most transformational feature on any media player to date, making movies on 4K HDR TVs better than you can ever imagine.

Play Formats Even Windows Doesn't Support

Did you know that Windows 10 does not support playback of the latest and popular HEVC (H.265) Ultra HD videos? PowerDVD just happens to be the most versatile HEVC media player on the market. This means you can replay videos shot on your GoPro or iPhone without having to download any additional software!

Supports Virtually Any Disc or File Format

PowerDVD boasts the most comprehensive disc and file format support you will find in any multimedia player. Play whatever your heart desires on your PC or laptop, including:
