"You know it's a bad idea, but you go ahead and do it anyway." Unfortunately, you might have heard or said some version of this before. There's a whole world of bad ideas out there. Of which some of them may be worthwhile, but most of them aren't. There are so many bad ideas, and even if you look only for them, you won't find any. But that's not always the case. Sometimes, the problem isn't the lack of bad ideas – it's too many. There is no shortage of bad ideas. They come in all shapes and sizes and from all different directions. The trick is to find the ones that you can implement. Unfortunately, there are a lot of bad ideas out there that are so "doable" that it's easy to justify them. That's the problem. Bad Ideas That Are Doable Bad ideas are all around us. Sometimes we choose to do them anyway, and other times, we actually think we should. Here are some of the ideas that I've seen over the past year: You've probably noticed the same bad ideas pop up on websites, books, and social media platforms. This is one of the worst problems we have today. Because of the proliferation of bad ideas, it's even more important than ever to filter out the worthwhile from the worthless. More than anything, you should avoid a bad idea when you encounter it. Although it may seem like you shouldn't have to, the truth is that you probably should. You're not going to get far if you're trying to implement a bad idea. Here's the trick: do a better job of finding worthwhile ideas. The good ones will lead to sustainable, powerful 82157476af
