Q: Is this the type of behavior that is used to dominate people? A: Yeah, so to be clear, it really doesn't have to be about gender or race or sexual orientation, but really just people trying to get the upper hand. This is basically the worst subset of male subtexting. It can be a way for guys to get girls to go along with their bullshit. But I also think it also can be used to get some nice ass girls to go along with their bullshit!.. 32% of the time 18% of the time 9% of the time 9% of the time 16% of the time 15% of the time 11% of the time 9% of the time 15% of the time 22% of the time 16% of the time 15% of the time.

The gangster eng sub is for some dude trying to feel cool by having his way with the world by doing some kind of dickish thing, like playing with kids of other guys, or whatever. The sub is mostly for guys that have tried to find a way to control the behavior of women. It's like "How do I get to have my way without hitting her? But then I'll hit her!" What's so special about it is not that it's funny (I think they might be over-simplifying there and getting a lot of the jokes wrong. The sub is fun, because I know there's a lot of humor and it's all based on people talking to each other), but the sub is also really effective as a weapon, mainly for trying to manipulate women, and for having fun. So in a meta sense, I think the sub is a really

great sub.
